

CONTROL NO.

TOP SECRET RUFF

DATE

27 January 1925X1

SUBJECT
AREA:

Ground Forces/Rear Services

IEG PI NOTICE

DISTRIBUTION:

All Imagery Analysts

No. 9-78

TITLE/SIGNIFICANCE:

Identification of Polish Reserve Bridging Sites

COMMENT:

Reserve bridging sites have been identified near major rivers along lines of communication in Poland. Two sites house an unidentified type of heavy bridge. These sites are both rail served and contain the same type of bridging component parts stored in the open. (OVER)
